### GENERAL DESCRIPTION

The OMEGABOND® OB-700 High Temperature Chemical Set Cement is a sodium silicate base, one-part ceramic cement which has many exceptional characteristics including:

- Resists temperatures to 827°C (1600°F)
- Resists oil, solvents and most acids (except hydrofluoric)
- Heat conductive and thermal shock resistant
- Excellent electrical insulator
- Adheres to metals, ceramics, glass, porcelain and most other surfaces
- Excellent mechanical bonding characteristics
- Ceramic-like body

OB-700 cement is used in assembling/sealing applications that are typical for electrical equipment. It is also ideal for coating applications on molds and forms that produce special patterns and shapes. The cement exhibits excellent bonding characteristics and is used on metals or other materials which have a high coefficient of thermal expansion.

### HANDLING INFORMATION

**CAUTION**

- Avoid prolonged breathing of vapors - work in well-ventilated area
- Protect skin against contamination
- Protect eyes against contamination
- Do not take internally

OMEGABOND 700 Powder is a harmful dust. Avoid breathing dust by using respirators. Avoid contact with eyes or skin by wearing gloves and goggles or a face shield. Wash thoroughly with soap and water after handling. Keep containers closed.

### SHELF LIFE

OMEGABOND 700 Powder has a shelf life of (6) months when stored in unopened, tightly sealed containers in a dry location at 70°F.

### SOLVENT

A 10% caustic or alkaline solution such as 10% NaOH (Sodium Hydroxide) will break down the OB-700 cement after it has cured. However, care should be exercised as far as the compatibility of the caustic solution with any other components involved in the application, such as the material or surface that the cured cement has been applied to.

### DIRECTIONS FOR USE

OMEGABOND 700 cement is a one part cement and is supplied as a powder. Mix the cement by placing 20-25% water by weight into a clean mixing container. Then gradually add 75-80% by weight of OB-700 Powder to the water. Use a slow-speed mechanical mixer or a hand spatula to mix

the cement. Avoid using excess water as that will reduce mechanical strength, increase the amount of shrinkage and delay the set time for the mixed cement. OB700 may be applied by brushing, troweling, pouring, molding or dipping. If the cement fails to adhere, this indicates that setting action has begun. In this case discard the cement - do not attempt to retemper by adding more water. Porous substrates should be dampened with OMEGABOND® Cement Thinning Liquid (Part No. OB-TL), prior to application of the mixed cement.

### CURING

OB-700 Cement cures with an internal chemical setting action in 18-24 hours at ambient temperature. Since it is a chemical-set cement, it can be used in thick applications (i.e., it can be applied in thicknesses greater than 1/4"). Cure time can be accelerated by low temperature oven drying at 180°F. If the cement is to be exposed to elevated temperatures, cure at 18-24 hours at ambient temperature, then oven dry for 4 hours at 180°F and for an additional 4 hours at 220°F. This helps to prevent flaking and chipping.

### PHYSICAL PROPERTIES\*

Maximum Service Temperature:	827°C (1600°F)
Color:	White
Coefficient of Thermal Expansion:	9.48 x 10 <sup>-6</sup> in/in°F
Compressive Strength:**	1460 PSI
Flexural Strength:***	250 PSI
Modulus of Rupture:**	431 PSI

\* Determined under laboratory conditions using applicable ASTM procedures. Actual field data may vary. Do not use Physical Properties for specifications.

\*\* At 7 days

\*\*\* At 2 days

### NOTE

The Material Safety Data Sheet (MSDS) for the OMEGA® OB-700 cement is shipped with the product. Additional copies can be obtained by contacting OMEGA Engineering and asking for MSDS-0138.

## WARRANTY/DISCLAIMER

OMEGA ENGINEERING, INC. warrants this unit to be free of defects in materials and workmanship for a period of **13 months** from date of purchase. OMEGA's WARRANTY adds an additional one (1) month grace period to the normal **one (1) year product warranty** to cover handling and shipping time. This ensures that OMEGA's customers receive maximum coverage on each product.

If the unit malfunctions, it must be returned to the factory for evaluation. OMEGA's Customer Service Department will issue an Authorized Return (AR) number immediately upon phone or written request. Upon examination by OMEGA, if the unit is found to be defective, it will be repaired or replaced at no charge. OMEGA's WARRANTY does not apply to defects resulting from any action of the purchaser, including but not limited to mishandling, improper interfacing, operation outside of design limits, improper repair, or unauthorized modification. This WARRANTY is VOID if the unit shows evidence of having been tampered with or shows evidence of having been damaged as a result of excessive corrosion; or current, heat, moisture or vibration; improper specification; misapplication; misuse or other operating conditions outside of OMEGA's control. Components in which wear is not warranted, include but are not limited to contact points, fuses, and triacs.

**OMEGA is pleased to offer suggestions on the use of its various products. However, OMEGA neither assumes responsibility for any omissions or errors nor assumes liability for any damages that result from the use of its products in accordance with information provided by OMEGA, either verbal or written. OMEGA warrants only that the parts manufactured by the company will be as specified and free of defects. OMEGA MAKES NO OTHER WARRANTIES OR REPRESENTATIONS OF ANY KIND WHATSOEVER, EXPRESSED OR IMPLIED, EXCEPT THAT OF TITLE, AND ALL IMPLIED WARRANTIES INCLUDING ANY WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED. LIMITATION OF LIABILITY: The remedies of purchaser set forth herein are exclusive, and the total liability of OMEGA with respect to this order, whether based on contract, warranty, negligence, indemnification, strict liability or otherwise, shall not exceed the purchase price of the component upon which liability is based. In no event shall OMEGA be liable for consequential, incidental or special damages.**

CONDITIONS: Equipment sold by OMEGA is not intended to be used, nor shall it be used: (1) as a "Basic Component" under 10 CFR 21 (NRC), used in or with any nuclear installation or activity; or (2) in medical applications or used on humans. Should any Product(s) be used in or with any nuclear installation or activity, medical application, used on humans, or misused in any way, OMEGA assumes no responsibility as set forth in our basic WARRANTY/DISCLAIMER language, and, additionally, purchaser will indemnify OMEGA and hold OMEGA harmless from any liability or damage whatsoever arising out of the use of the Product(s) in such a manner.

## RETURN REQUESTS / INQUIRIES

Direct all warranty and repair requests/inquiries to the OMEGA Customer Service Department. BEFORE RETURNING ANY PRODUCT(S) TO OMEGA, PURCHASER MUST OBTAIN AN AUTHORIZED RETURN (AR) NUMBER FROM OMEGA'S CUSTOMER SERVICE DEPARTMENT (IN ORDER TO AVOID PROCESSING DELAYS). The assigned AR number should then be marked on the outside of the return package and on any correspondence.

The purchaser is responsible for shipping charges, freight, insurance and proper packaging to prevent breakage in transit.

FOR **WARRANTY** RETURNS, please have the following information available BEFORE contacting OMEGA:

1. Purchase Order number under which the product was PURCHASED,
2. Model and serial number of the product under warranty, and
3. Repair instructions and/or specific problems relative to the product.

FOR **NON-WARRANTY** REPAIRS, consult OMEGA for current repair charges. Have the following information available BEFORE contacting OMEGA:

1. Purchase Order number to cover the COST of the repair,
2. Model and serial number of the product, and
3. Repair instructions and/or specific problems relative to the product.

OMEGA's policy is to make running changes, not model changes, whenever an improvement is possible. This affords our customers the latest in technology and engineering. OMEGA is a registered trademark of OMEGA ENGINEERING, INC.
