LOW COST ELECTRONIC THERMOMETERS

- Rugged Stainless Steel Probe
- Choice of °C or °F Readout
- Water Resistant Case

The PHTC1 and PHTF1 digital thermometers conveniently combine a probe and digital meter into one easy-to-use unit. The probe is a thermistor, housed in a stainless steel shaft, which not only eliminates the need for mercury-filled glass thermometers, but it also allows the probe to penetrate frozen or semi-solid materials. Results are displayed quickly and accurately. A built-in calibration testing device assures the user that readings are reliable. Two models are offered: one for readings in °C and another for readings in °F.

WATER-RESISTANT ELECTRONIC THERMOMETERS

- Rugged Stainless Steel Probe
- Choice of °C or °F Readout
- Water Resistant Case

The PH-TC and PH-TF electronic thermometers are housed in water resistant cases to provide protection against even the harshest environments. Moisture and dust do not affect the circuitry of these meters, making them ideal for use in high-humidity locations like greenhouses and fish farms. Unlike conventional glass thermometers, the PH-TC and PH-TF are rugged enough to withstand harsh industrial applications, and the stainless steel probe is resistant to most chemicals.

More than 100,000 Products Available!

- **Temperature**

- **Flow and Level**
  Air Velocity Indicators, Doppler Flowmeters, Level Measurement, Magnetic Flowmeters, Mass Flowmeters, Pitot Tubes, Pumps, Rotameters, Turbine and Paddle Wheel Flowmeters, Ultrasonic Flowmeters, Valves, Variable Area Flowmeters, Vortex Shedding Flowmeters

- **pH and Conductivity**
  Conductivity Instrumentation, Dissolved Oxygen Instrumentation, Environmental Instrumentation, pH Electrodes and Instruments, Water and Soil Analysis Instrumentation

- **Data Acquisition**

- **Pressure, Strain and Force**
  Displacement Transducers, Dynamic Measurement Force Sensors, Instrumentation for Pressure and Strain Measurements, Load Cells, Pressure Gauges, Pressure Reference Section, Pressure Switches, Pressure Transducers, Proximity Transducers, Regulators, Strain Gages, Torque Transducers, Valves

- **Heaters**
